

If you're looking to create a new character and your race selection is flexible, use this Stat Bonus Chart to help. Perhaps you're just wanting to play to a stereotype of a brutish tank, a mouthy bard, or a sneaky rogue. If so, that's great! Stereotypes can be a lot of fun and playing to them doesn't make you a poor gamer. Sort the list by the ability score you want to maximize and have fun.

Be sure to share this with your friends. Also, let me know if you have questions or if I've missed something that should be included.

5E RACIAL STAT BONUS CHART

The 5E Racial Stat Bonus Chart is a quick reference for applying racial ability score bonuses as per the rules of Dungeons & Dragons 5E official content. *Tasha's Cauldron of Everything* (<http://amzn.to/3blcs91>) has suggestions for using the bonuses more liberally to suit your particular liking. This table makes no judgment whatsoever and merely exists as a reference for those who wish to use those bonuses as they appear in various sourcebooks. I will update the table as new information becomes official canon.

*Races appear multiple times if they also appear in multiple sources.
